

LED Display

Pixel pitch	10mm
Led type	SMD3535
Usage	Outdoor
Protection class	IP65
Brightness	>6000 nits
Led panel material	Front open iron cabinet
Led panel size	Customized
Weight	40 kgs/sqm
Power supply	110/220v-50/60Hz

Technical Specification

Led lifetime	100000 hours
Viewing angle	140 ° / 140 °. Extended angle that improves viewing of images from the side
Working temperature and humidity	-30°C / 50°C 10% ~ 95%
Refresh rate	3840Hz
Pixel density	10000 dot/m2
Control system	Novasater/Colorlight/Linsn
Video signal input	HDMI, DVI, VGA...
Grayscale	14-16 bits
Avg power consumption	350 / m2
Brightness control	Programmable

- PROGRAMMABLE ON AND OFF
- DURABLE FOR FIXED INSTALLATION
- SUPPORTED VIDEO AND IMAGE FILES: AVI, WMV, MPG, MOV, VOB, MP4, FLV, Bmp, jpg, png ...
